Lector 2.0 Workshop: Techniques for Proclaiming the Word of God

I will also be offering the second part of the Lector series (that began last year) which will focus on techniques for proclamation. Because this particular session involves practice with church sound systems (and each church presents different acoustical challenges), it is best to schedule this session for lectors from a single church or parish,

rather than regionally. Parishes that wish to schedule a Lector 2.0 session should contact me in the Office of Worship.
