LEFT: Sister Jane, the medical Assistant attending to sick kids in the school infirmary

New Mosquito Nets

Sr Molly

We bought 200 mosquito nets for resident pupils.

Uganda remains at high risk of malaria infection (WHO report 2024).

However, sleeping under the mosquito net reduces malaria infection and mortality among children by about 80%.

The Girls

- **Excitement of the girls receiving new mosquito nets against Malaria**

Thank you for protecting
the children against
malaria.

Fixing Mosquito Nets on the Beds

• Sister Molly

Little Acan

• Teacher Agnes
