TB QUESTIONNAIRE: STUDENTS
Catholic Schools Office
2025-2026 School Year
Archdiocese of Galveston-Houston

Name of Child:_____ Date of Birth: _____

School: _____ Date: _____

Tuberculosis (TB) is a disease caused by TB germs and is usually transmitted by an adult person with active TB lung disease. It is spread to another person by coughing or sneezing TB germs into the air. Children who have active TB disease usually have many of the following symptoms: cough for more than two weeks duration, loss of appetite, weight loss of ten or more pounds over a short period, fever, chills, and night sweats. A person can have TB germs in his or her body but not have active TB disease (this is called latent TB infection or LTBI). Tuberculosis is preventable and treatable. TB skin testing (often called the PPD or Mantoux test) is used to see if your child has been infected with TB germs. No vaccine is recommended for use in the United States to prevent tuberculosis. The skin test is not a vaccination against TB. We need your help to find out if your child has been exposed to tuberculosis.

Place a mark in the appropriate box:	Yes	No	Don't Know
TB can cause a fever of long duration, unexplained weight loss, a bad cough (lasting over two weeks), or coughing up blood. As far as you know: • Has your child been around anyone with any of these symptoms or problems? or • Has your child had any of these symptoms or problems? or • Has your child been around anyone diagnosed with TB?			
Was your child born in Mexico or any other country in Latin America, the Caribbean, Africa, Eastern Europe, or Asia?			
Has your child traveled in the past year to Mexico or any other country in Latin America, the Caribbean, Africa, Eastern Europe, or Asia for longer than 3 weeks? If so, specify which country/countries. _____ What are the dates of the 3-week or longer travel? _____			
To your knowledge, has your child spent time (longer than 3 weeks) with anyone who is/has been an intravenous (IV) drug user, HIV-infected, in jail or prison, or recently came to the United States from another country?			

If you marked "YES" to any of the questions above, contact the school nurse or health coordinator to review the next steps.

Has your child been tested for TB? Yes___ (if yes, specify date ____ /____) No___

Has your child ever had a positive TB skin test? Yes___ (if yes, specify date ____/____) No___
