Principal's Message

This week I wish to provide an update regarding staffing in our Pre-Kindergarten program. Mrs. Romilou Terza, instructional assistant, resigned from her position last week, concluding her employment at All Saints on Wednesday, October 14. We thank her for her service, both in our Extended Day and Pre-Kindergarten programs, over the course of the past year.

I have begun the process of seeking a replacement and will provide updates as soon as I am able. In the meantime, Mrs. Pastora Ortiz, Extended Day Assistant, is serving as the primary substitute instructional assistant with other staff assisting when she is unable to be present in the classroom. Mrs. Brandares and Mrs. Nguyen will be collaborating closely to ensure as much continuity as possible in the classroom during this time of transition. I look forward to providing updates regarding a new hire as soon as that information becomes available.

To do justice and to love goodness, and to walk humbly with your God.

Tuition Assistance Program (2027-2028)

Information regarding the Diocesan Tuition Assistance program for the upcoming academic year is now available. For details, please see the flyer found at the link below.

2027-2028 Diocesan Tuition Assistance Program

Additional details about the program can also be found on the diocesan website.

https://www.arlingtondiocese.org/catholic-schools/tuition-assistance

The key financial aid dates for **2026-2027** are as follows:

January 11, 2027	Financial aid application due date for diocesan **high school students**
March 15, 2027,	Financial aid application due date for diocesan **K-8 school students**

Thanksgiving Luncheon (Monday, November 23)

On Monday, November 23 we will host our annual Thanksgiving Luncheon. All parents are cordially invited to attend this special event with their child(ren). For a number of years, we have linked this celebration to an outreach effort to benefit Catholic Charities in support of *We Care Week,* a diocesan initiative scheduled for the first week of December.

Again, this year, donations may be included with your Thanksgiving Luncheon payment. Please see the order form from the cafeteria for more details, a copy of which can be found at the link below.

THANKSGIVING ORDER FORM

Volunteers are needed to help with set-up and decorations, clean-up, food preparation, and with serving food during the Thanksgiving Luncheon. Volunteer shifts are designed so that you will be able to sit and enjoy your meal with your child (ren). Please consider helping for at least one shift throughout the day. If you are available to assist, please sign up via Track it Forward below.

VOLUNTEER SIGN-UP

Thanksgiving Luncheon: Event Sign Up Sheet | Track It Forward

Thanksgiving Luncheon Set-up: Event Sign Up Sheet | Track It Forward

(Note: VIRTUS compliance is not required for volunteers helping with set-up on Sunday but is required to volunteer on the actual day of the event.)

Penny Bazaar

The Penny Bazaar is almost here! As per All Saints tradition, we will be having our annual afternoon of fun and cupcakes next Friday, October 30. This event will be held in the back parking lot from 1:30-2:30pm. All classes have set up Track it Forward signups for volunteer and donation slots. Please be sure to check your class's listing for opportunities to earn points for parents. We are asking that each family donate a bag of party favors to their child's classroom so that we will have enough prizes to give out for each game played.

Please send your child to school that day with a bag of pennies or coins, as well as an additional bag to carry their goodies in. Thank you for helping us make this day of fun and community building a success!

Annual Asbestos Notification

For several decades the staff of All Saints Catholic School and the Diocese of Arlington have worked together to ensure compliance with the Asbestos Hazard Emergency Response Act (AHERA). Twice annually our school is inspected in accordance with this act and any necessary steps are taken to maintain compliance and a safe environment for our students, staff, and parents.

In accordance with this act, this notification is being provided to you to inform you that asbestos-containing materials are present in our school. A copy of our school Management Plan contains the exact locations of any asbestos-containing materials and is maintained on file in the archives. This plan is available for your review and inspection during normal school hours when the building is open. As such, please feel free to request information on or about our Management Plan and inspection findings.

Should you have any questions about this program, please do not hesitate to contact the principal. Most importantly, please know that this communication is not related to any concern or change in circumstance, rather it is simply an effort to publish this information in accordance with the requirement.

Q&A Gaming is taking over my child's life. What can I do?

Q: My child loves to play games online, and often rushes through schoolwork in order to play them. I'm worried about the effects on my child's schoolwork and mental well-being. What should I do?

A: Some games—such as those on educational topics or that promote exercise—can be beneficial. However you are right that too much time on the wrong activities can negatively affect health and learning. Game designers know how to create games that keep players hooked. And some games include "gambling" and reward elements that increase the risk that players will become online gamblers.

To keep gaming from interfering with schoolwork, healthy activities and time with friends and family:

- **Set boundaries.** Review game content. Allow only educational games, and only in your presence. Then, establish screen-free times of day, such as schoolwork time, reading time, mealtime, family time and bedtime.
- **Emphasize** that learning matters more than leveling up in a game.
- **Offer enjoyable screen-free alternatives.** Plan fun activities such as reading aloud, playing outdoors and playing board games.

Parent Quiz Are you teaching problem-solving skills?

All children face obstacles. To overcome them, they must identify and act on solutions. Are you helping your child learn to think through problems and decide what to do? Answer *yes* or *no* to the questions below:

1. **Do you provide** your child with lots of opportunities to practice making decisions?
2. **Do you ask** your child to think through problems with you? Do you ask questions rather than jumping in with solutions?
3. **Do you talk** about your child's strengths and suggest applying them to challenges?
4. **Do you tell** your child about strategies you use to find solutions when you have problems?
5. **Do you remind** your child about times your child managed problems well in the past?

How well are you doing?

More yes *answers mean you are helping your child tackle problems head-on. For each* no, *try that idea.*

"A problem is a chance for you to do your best."
—Duke Ellington

Teach the value of honesty

Honesty is a fundamental value in school as well as life. However, around third grade, when grades and tests take on more importance, cheating sometimes follows. Stress the importance of honesty with your child. Make it clear that:

- **Working hard** at learning and being honest are more important than getting a high grade.
- **Cheating is never OK,** even to help a friend. Together, role-play ways to say *no*.
- **A grade or test score** will never change your love for your child.

Encourage recall practice

Research shows that recalling information is a learning activity that helps students retain material better. To help your child put this study strategy to use:

- **Suggest inviting** a friend over to study. The children can quiz one another. Or, you can call out questions.
- **Create practice tests.** Help your child look over notes, reading and handouts and create questions the teacher might ask. Then your child can answer them.

Source: P.K. Agarwal and others, "Retrieval Practice Consistently Benefits Student Learning," *Educational Psychology Review.*

Chores teach skills & more

Assigning chores may sound old-fashioned. But children who do a few age-appropriate chores at home learn lessons they can apply in school. Chores can help children:

- **Invest** in making their surroundings or family life better.
- **Learn** life skills.
- **Develop** self-discipline.
- **Learn** to take pride in their work.
- **Practice** working with others.

Use frequent and fun activities to help your child master math

Math is a subject that builds on what students already know. To solve today's problems, your child must be able to remember and apply previously-learned concepts.

Research shows that one effective technique for long-term learning is *distributed practice*. This means that instead of practicing math for one hour once a week, your child should practice the same material in shorter chunks of time every day.

There are many fun ways to help your elementary schooler practice math. Here are three to try together:

1. **Pretend your calculator is broken.** Say, "Imagine our calculator has no number 8. What are some other ways to represent that number?" It could be 10-2 or 4+4 or 24/3.
2. **Play games with dice or cards.** Take turns rolling two dice or flipping over two cards and quickly adding up the sum of the two numbers. Later, include subtraction, multiplication and division in the challenge.
3. **Combine coins.** Put an array of coins on a table. Keep a few in your hand that your child can't see. Then, say something like, "I have three coins in my hand. Together, they are worth 60 cents. What are they?" Your child can use the table coins to solve the problem. Then, trade places.

Questions are welcome at conferences

A parent-teacher conference provides valuable one-on-one time with the teacher to learn about your child's academic progress, behavior and well-being. You can also find out more about what to expect in the year ahead.

Preparing specific questions in advance will help you make the most of your time with the teacher. Ask questions like:

- **Are my child's reading** and math skills at the level you would expect for this time in this grade?
- **Is my child in different** groups for different subjects?
- **What topics will you cover** in class this year?
- **What are your expectations** for work and reading at home?
- **What are my child's** strengths and areas for improvement?
- **How well does my child** get along with other students?
- **Does my child qualify** for any special programs?
- **How can I support** my child's learning at home?

Dive deeper into reading

Strong readers can understand the meaning, context and details in a text. To develop reading comprehension skills, encourage your child to:

- **Summarize the** chain of events in a story out loud. Why did things turn out that way?
- **Discuss ways** the text relates to things your child has learned or experienced.
- **Take a character's** place. Would your child make the same choices?
- **Consider what point** the author was trying to get across.

Source: "Reading Comprehension and Higher Order Thinking Skills," K-12 Reader.

Learning thrives on respect

Respectful behavior helps create the positive school environment students need to learn. To teach your child what it involves:

- **Discuss respect.** How does it feel to be treated with respect or disrespect?
- **Demonstrate.** Treat your child and others with respect.
- **Notice and praise** respectful behavior.

Reinforce responsibilities

Learning in school is your child's job, and it comes with responsibilities. Remind your child that fulfilling them means:

- **Being prepared** for class with pencils, paper and a positive attitude.
- **Participating** in class discussions.
- **Organizing,** so your child can find schoolwork and supplies when needed.
- **Persisting** when work is challenging.

Tips Families Can Use to Help Students Do Better in School
Prince William County Schools

Ask questions to help your child find solutions for math problems

Helping your middle schooler with math may seem difficult if the concepts are unfamiliar to you. Don't worry! You don't need to have the answers to demonstrate how to tackle math assignments. The key is to ask questions that will help your child figure things out.

When your child is stuck, ask:

- **Which problem** are you working on? Help your child focus on one thing at a time. This can ease any feelings of intimidation your student may be feeling when faced with a whole sheet of equations.
- **Can you read me the instructions?** Reading directions out loud can help your child pick up on key words that were overlooked the first time.
- **Is there any part of the problem you can do?** Once your child gets started, things may become clearer.
- **Are there things you have learned before** that might help you?
- **Where could you look for more explanation?** Suggest that your child check the textbook, the class website or search online for instructional math videos on the concept.

If your child is still confused after giving a real effort, ask, "How soon can you ask the teacher for help?" Suggest writing down specific questions to ask.

Make your home a place for learning

Building skills and increasing knowledge aren't just school activities. When you promote and reinforce learning at home, your child becomes a stronger student. Here are some simple ways to enrich your child's non-school hours:

- **Engage in conversations** about all kinds of subjects. Ask what your child thinks. Listen and ask follow-up questions.
- **Teach life skills.** Assign your child meaningful responsibilities. Demonstrate how to prepare simple meals and follow a budget.
- **Ask about newly-learned** topics and ideas. What does your child find most interesting? Have your child explain concepts to you. Retelling information reinforces it in students' minds.
- **Introduce your child** to new things and experiences. Ask, "Can you think of a way this relates to what you are learning in school?"
- **Ask for help.** Have your middle schooler apply knowledge and skills to answer questions or help you with projects.

Turn reading into learning

When your child needs to learn and recall academic material in a reading assignment, a four-step approach can help. Encourage your middle schooler to:

1. **Skim the text** and pay attention to graphics, headings and boldface text to get an idea of key points.
2. **Read the text slowly** and take notes.
3. **Write a summary** of the main themes and supporting facts.
4. **Answer questions** about the material. If there aren't any at the end of the text, you child can make some up and then answer them.

Demonstrate organization

To help your child manage multiple classes and activities effectively, show how to use:

- **A planner** to record and see assignments and schedules in one place.
- **To-do lists** to stay on top of daily, weekly or monthly tasks.
- **Sticky notes** to jot down reminders or thoughts to come back to later.

Provide thinking practice

Middle schoolers are expected to research topics, think deeply about information and back up ideas with solid evidence. To help your child rise to the challenge, ask questions that require higher order thinking, such as:

- **Why** is your favorite so good? What characteristics make it better than other things?
- **How** could we do this better (or save money on this)?
- **Which** should we get? Which product or service is the best choice and why?

MIDDLE SCHOOL
Helping Students Learn®
Tips Families Can Use to Help Students Do Better in School
October 2026

Q&A My child won't say what's wrong. What should I do?

Q: My middle schooler is clearly upset about something, but doesn't want to talk about it. How can I get my child to open up without being too pushy?

A: It's common for adolescents to clam up when it comes to discussing problems with their families. But issues that drag on for days or weeks can affect health and schoolwork, so it is important to keep trying to find out what is bothering your child.

To open the door to two-way communication:

- **Express concern.** Say something like, "I can see there's something on weighing on your mind. I'm here for you no matter what. You can talk to me about anything. It's my job to help you figure things out."
- **Define expectations.** "I respect your privacy and your desire to handle this yourself. Take a little more time to think things over, but I do need to know what's happening. Let's talk after dinner and see if we can figure it out together."
- **Reach out for support, if necessary.** If your child still refuses to talk, contact a school counselor, doctor, coach or other trusted figure in your child's life. Work together to discover what's going on and help your middle schooler manage it.

Parent Quiz Are you helping your child stay focused?

It takes concentration to pay attention in busy classrooms, read complex material and solve multi-step problems. Are you helping your middle schooler strengthen focus? Answer *yes* or *no* to the questions below:

1. **Do you establish** screen-free times and zones and have your child turn off unneeded devices and apps when doing schoolwork?
2. **Do you suggest** that your child set goals for each study session?
3. **Do you minimize** distractions when your child is working?
4. **Do you encourage** your child to engage in screen-free focus-building activities, such as making models or playing sports?
5. **Do you notice** and offer praise when your child persists and sees tasks through?

How well are you doing?

More yes *answers mean you are helping your child develop powers of concentration. For each* no *answer, try that idea.*

"People think focus means saying yes to the thing you've got to focus on. But that's not what it means at all. It means saying no to the hundred other good ideas that there are."
—Steve Jobs

Supervise social media use

Research shows that the majority of 11 and 12-year olds use social media despite being underage. To learn to navigate this world safely, they need adult guidance. To help:

- **Set behavior standards.** No hurtful posts. No posting anything your child wouldn't want the whole world to see.
- **Protect privacy.** Review settings and limit who can see your child's posts.
- **Demonstrate balance.** Put phones away during time with your child.
- **Ask your child** to tell you about posts that are confusing or scary.

Source: J.M. Nagata and others, "Prevalence and Patterns of Social Media Use in Early Adolescents," *Academic Pediatrics.*

Help your middle schooler practice being responsible

Having some responsibilities at home helps your child learn to handle them at school. Avoid overload by assigning just a few new self-care responsibilities that fit age and maturity, like making school lunches or doing laundry. Then, allow your child to learn by experiencing consequences when responsibilities aren't met.

Foster traits for learning

Each student is an individual. But students who achieve in school share many qualities. To help your middle schooler develop:

- **Curiosity,** expose your child to new ideas and experiences.
- **Persistence,** help your child set goals and praise effort and progress.
- **Resilience,** encourage learning from mistakes and planning for improvement.
- **Confidence,** show your love and belief in your child's ability to learn.

Open House – Thursday, November 5th (9:00 a.m.)

All Saints Catholic School will host an *Open House* for prospective parents on Thursday, November 5th beginning at 9:00 a.m. in the Parish Activities Center. All parishioners and members of the community interested in learning more about our school are cordially invited to attend. For more information, please contact Mrs. Mary Rodriguez, Administrative Assistant, at (571) 516-3170 or mrodriguez@allsaintsva.org.

If you are interested donating items to fill gift bags for our Open House, please do so in the following link: Event Sign Up Sheet | Track It Forward

Keep Christ in Christmas Poster Contest

The Knights of Columbus George Brent Council 5332 invites All Saints students in Kindergarten through Grade 8 to participate in the Keep Christ in Christmas Poster Contest.

Create an original 11 × 17-inch poster reflecting the theme **"Keep Christ in Christmas."** Competition divisions are Kindergarten, Grades 1–2, 3–4, 5–6, and 7–8. Completed posters and signed entry forms must be submitted to the All Saints Catholic School Office by **Friday, December 11, 2026**. All participants will receive a certificate, and first-place winners will be selected in each division. Contest rules and entry forms are available from the school; questions may be directed to Knights of Columbus Vincent Fitzpatrick at **fitzman56@gmail.com**.

2026 KCIC Poster Contest Rules

2026 Poster Entry Form

Middle School Football, Cheer, and Band Night at JP - Oct. 23rd

Description: Save the date for our Middle School Football and Cheer Night on Friday, October 23rd! This is for 5th-8th grade students interested in high school football and cheer and their parents. Click here to RSVP for our Middle School Football and Cheer Night! Click here for the Middle School Football Night flier! We will also host our Middle School Band Night that evening! Students will rehearse from 3:30-5pm, have dinner with the band, then perform with the marching band during the 1st half of the football game. Click here to RSVP! Click here for more information!

Open House at John Paul the Great - Sunday, Nov. 1st

Saint John Paul the Great's Open House is fun for the whole family on Sunday, November 1st from 1-4pm! Learn more about our rigorous college-preparatory curriculum, competitive athletics, inspiring visual and performing arts, and abundant extracurricular opportunities. Meet students, faculty, coaches, administration, and parents to learn more about the programs you love.

Pre-register here!

Link: https://jpthegreat.fsenrollment.com/portal/new_inquiry

St. Paul VI - Open House

St. Paul VI Catholic High School, Chantilly, VA, invites families to learn more about our caring, Catholic community where we inspire the extraordinary in one another. Register for our fall Open House on Sunday, October 25, 2026, from 1–3 p.m. at 42341 Braddock Road, Chantilly, VA 20152. Visit our website www.paulvi.net/openhouse to learn more and register to attend the Open House. Applications are being accepted until Monday, December 14, 2026.

Important Reminders

- **Parent-Teacher Conferences**
  Parent-Teacher Conferences will take place on Monday, November 2 and on the afternoon of Tuesday, November 3. Parents are invited to sign-up for an in-person meeting via the links that were sent via email by the homeroom teachers last week.

  Middle school students are asked to attend the conference with their parents or guardians. Again, this year, we look forward to using a "student led" conference model that involves their participation and reflection with you and their teacher.

  Parents of middle school students who wish to speak with a specific subject area teacher other than their homeroom teacher, are invited to contact that faculty member directly to schedule a conference time.

- **School Picture Day**
  School Picture Day will take place on Wednesday, November 4.

  All students are asked to wear their school uniform (winter) for Picture Day. Those scheduled to attend P.E. on Wednesday are asked to wear their regular uniform to school that day.

  Date: Wednesday, November 4, 2026
  Pictures Available: Approximately two weeks after photo day
  Pre-order Online: https://shop.imagequix.com/g1001416002
  Questions about Ordering? www.vosphoto.com/contact-us

- **Veterans Day Mass, Assembly, & Reception**
  Join us as our school community comes together to honor the service and sacrifice of the men and women of the United States Armed Forces. We warmly invite all active duty, reserve, former, and retired military personnel to attend our **Veterans Day Mass** on **Friday, November 6 at 8:30 AM**.

  Following Mass, guests are invited to a special **assembly in the PAC**, and then to a **reception in Father Kelley Hall,** where we will continue to celebrate and thank our honored veterans.

  In addition, students received a packet last week with details about our **Veterans Wall of Honor**, an annual tradition that expresses our gratitude for the veterans in our school community. The packet includes instructions for how to be included in both our **Family Veteran Binder** and **Veterans Display**, which features red paper bricks inscribed with the names of those who have served.

  We look forward to commemorating this meaningful day together and showing our heartfelt appreciation to our heroes.

RUNNING WITH THE SAINTS 5K

OCT 24 2026

The **Running with the Saints 5K** features a family-friendly atmosphere, Blue Ridge timing for running enthusiasts, musical entertainment, and great prizes!

All Saints Catholic School

SCAN TO REGISTER!

Race registration is now open.

The Running with the Saints 5K race course will start and end at All Saints. This event features a family-friendly atmosphere, Racewire timing for running enthusiasts, musical entertainment, and great prizes! Runners, walkers, and baby strollers welcome; staggered start times. Registration is $35 for adults / $25 for youth. Proceeds from this event will benefit All Saints Catholic School. Register today at runsignup.com/Race/VA/Manassas/RunningWithTheSaints5k

Running with the Saints 5K – Event Sponsorship Available

All Saints Catholic School is hosting its annual Running with the Saints 5K on Saturday, October 24. Become a sponsor and take advantage of this opportunity to advertise your business to race participants and families in the All Saints school and parish community. Sponsorship options available for all levels! Learn more about sponsorship by contacting Sara Roberts at RWTS@allsaintsva.org or by visiting allsaintsvaschool.org.

Running With The Saints 5k VOLUNTEERS needed:

We are looking for volunteers to help make the upcoming Running with the Saints 5k a success! Whether you assist with the Packet Pickup Party the day before or help with day-of activities, we would love your support. We are especially in need of Course Monitors! This is a great way to support our runners by cheering them on from a designated spot along the course while helping guide everyone along the correct route. Check out the Track it Forward links below and email me with any questions: mecscanlon@gmail.com. Thank you for being a part of this community!
